### Planner's Comments

Once again we had a strong turnout for the 3<sup>rd</sup> successive year. The entry list of 66 cards made it the 2<sup>nd</sup> best turnout ever. We had a good turnout of foreigners, with the Finnish national squad (in training in Dullstroom) as well as some Swazis in attendance.

Thank you's must go to the various people. Firstly to the Friends of Kloofendal organization for arranging permission to stage the event in these wonderful surrounds. Once again people seemed to have really enjoyed themselves and the gardens. Secondly to all the people who helped on the day: George, Joan, Sheila, Craig, Alex, Ian and Michael. Then also to all the volunteers who collected controls, a big thank you for your help, organizing this event would not be possible without it.

We had some intense battles out on the courses. The Fins won hands down, as was expected, but the battle for the Top S.A. positions was intense. Both the men's and women's courses saw constant changing of the leads on the second race, with our junior national squad members coming out on top. Well done Bradley and Salome! Finally, a big congrats to our Novice winners, Darron Raw and his family from Swaziland, who have notched up their first win on their first ever orienteering course.

Well done to all participants who managed to complete the courses. Kloofendal is a tough environment and I under-estimated the speed of the course. This meant almost all people were out there for very long periods of time in hot conditions. Despite already shortening the courses from the first sprint cup on this terrain, I still got it wrong. Apologies for this, I'll have to make it up to you at the 2010 Sprint Cup – we will seek permission to stage this at the Pretoria Botanical Gardens, where it is much more runnable and enjoyable.

Finally, a big thank you to all the participants for turning up at the race.
